AmericasMart has been a key event in the design industry for over 60 years, being THE location to see what's new in entertaining and kitchenware along with giftables and furniture. That's why for their Diamond Anniversary they are partnering with 10 designers to create the **Diamonds of Design Exhibition**. Each vignette will be centered on an era or an icon that influenced each designer with pieces from showrooms located in AmericasMart. With so eras to reference and draw inspiration from, we were curious to see which source of inspiration each chose and how it translated into their vignette.
